

## Handmade Ornaments from Residents Being Delivered to Residents in Care Centers and Hospice

Residents who live in homes operated by Wood Lane Residential Services, Inc. are spreading some holiday cheer to residents in various nursing homes and hospice facilities. In November, men and women made handcrafted ornaments and now are delivering them personally to individuals who live at Blakely, Hospice of NW Ohio, BG Manor, Bridge Hospice and Woodhaven Care Center.

WLRS, Inc. staff member Janilyn Dennis came up with this project idea. She is a Certified Occupational Therapy Assistant and is responsible for coming up with meaningful activities for Wood Lane residents to participate in. The project was an excellent program for residents to use their skills to create a unique gift and it was also a way to give back to others.
